Journal of Microsurgery

INDEX FOR VOLUME 1

Issues 1–6
July/August 1979–May/June 1980

HM MD A Houghton Mifflin Medical Publication

The Editor and staff of the JOURNAL OF MICROSURGERY gratefully acknowledge the help of these scientists who have assisted the Editorial Review Board in reviewing manuscripts during the past year.

AUTHOR INDEX TO VOLUME 1

This index lists, in alphabetical order, the names of authors of all articles, letters, editorials, and abstracts of meeting presentations. Full citation is provided under the first author only, with reference made from joint authors. Abstracts, editorials, and letters are distinguished from articles by the following code: A = abstract, E = editorial, L = letter.

A

Acland RD, see Finley JM
Adashi EY, see Rock JA
Agris J, see Freed D
Ahiay A, see Meyermann R
Almoyna CM: Microcirculation in rat vas deferens anastomosis, 82-A
Anderer M, Neeser E: Microsurgical repair of the Fallopian tube after sterilization of New Zealand white rabbits, 82-A
Anders A, Häring R, Pickarzt H, Herbst R: Scanning and light microscopic examinations of Gore-tex vascular implants in rats, 77-A

B

Baek S-E, Jacobson JH II: A new clamp for end-to-side microvascular anastomosis, 465–469
Baker DC, see Shaw WW
Barraquer JI: The history of the microscope in ocular surgery, 288–299
Bastert G, see Steinau HU
Battistini C, Defranco S, Lampugnani R, Sandona F: Direct lymphaticovenous anastomosis in the rat, 85-A
Baudet J, Guimberteau JC, Nassar P, Siberchicot F, Laisne D, Traissac JL: Reconstruction of the pharynx and esophagus by revascularized transfers of intestine and stomach, 172-A
Baudet J, Guimberteau JC, Dolmans S: Free tissue transfers from the foot, 162-A
Baudet J, see Dolmans S
Baumeister RGH, Land W: The use of microsurgical methods in the treatment of uremic patients: experiences with a shunt in the snuff-box, 82-A
Beale JP Jr: Is there a stereo-video microscope in your future?, 165-A
Beck C, see Thiede A
Becker H, see Wagenknecht LV
Belloni G, see Maira G
Bernhard A, see Konertz W
Biemer E, see Holzmann T
Biemer E, Duspiva W, Herndl E, Stock W, Werber K, Heiss E, Glas K, Götz WD: Experience of a replantation service with over 400 replantations by microvascular anastomosis, 164-A
Biemer E, Duspiva W, Werber K: Free-flap transplantation, 162-A
Biemer E, see Werber K
Biggio G, see Palombi M
Billis A, see Homatas J
Blanchard JM, Tauber JW: Heart and spleen twin grafts in rats, 381–386
Blanchard JM, Tauber JW, Zabriskie JB: Phonocardiographic diagnosis of left ventricular thrombosis in heterotopic rat heart transplants, 166-A
Blümel G
see Duspiva W
see Holzmann T
Blunck F, see Thiede A
Bonke S, see Maurer PC
Borrelli P, see Maira G
Boyer DS, see Miller JB
Bretschneider HJ
see Nordbeck H
see Preusse CJ
Brieler HS, Thiede A: New aspects of pseudoendothelial-cell growth on plastic prostheses in experiments on rats, 77-A
Broelsch Ch, Gruen M, Liehr H, Kessler M: Hemodynamic and microcirculatory state of auxiliary liver isotransplants without portal blood supply, 166-A
Broelsch CE, see Lee S
Brynger H, see Olausson M
Buncke HJ Jr
see Harris GD
see Hendel PM
see Mehdorn HM
see Sadove R

C

Capanna AH, Lumbar microdiscectomy in rats, 351–353
Caravela AMT, see De Sousa Pereira JMM
Chandler JG, see Lee S
Chang T-S: Experiences in microsurgery in the People's Republic of China, 154–157
Chang YC, see Foo D
Charters AC III, see Lee S
Chater NL, see Mehdorn HM
Chiba T, see Nozawa M
Chignier E, see Sindou M
Christman KD, see Freed D
Ciprut S, see Patel MR
Cline C, see Sadove R
Cohen RJ, see Sher H
Condon JK, see Lee S
Converse JM, see Shaw WW
Csongrady AK: The use of controlled hypotension in microsurgery, 173-A

D

Dahlke H: Problems of manufacturing and handling microsurgical suture material, 165-A
Daniel RK, see Lidman DH
Da Pian R, Pasqualin A, Scienza R, Vivenza C: Microsurgical treatment of ten arteriovenous malformations in critical areas of the cerebrum, 305–320
Defranco S, see Battistini C
Deltz E, see Poser H
De Riu PL, Falzoi A, Papavero L, Rocca A, Viale GL: Local cerebral blood flow after middle cerebral artery occlusion in rabbits following transposition of omentum to the brain, 321–324
Descotes J, see Sindou M
De Sousa Pereira JMM, Monma ST, Caravela AMT: Microsurgical neurovascular sutures and their histochemical posttraumatic consequences: experimental research, 162-A
Diaz-Pardo JA, see Jaureguizar E
Di Rocco C, see Maira G

Dolmans S, Guimberteau JC, Baudet J: The upper-arm flap, 162-A
Dolmans S, see Baudet J
Donaghy RMP
An appeal to ultimate authority, 1-E
Great hoax from little microns grow, 93-E
A liberal spirit and an honest mind, 417-E
The perception of small differences, 257-E
Practice for perfection, 181-E
Questions solicited—answers sought, 339-E
Draf W, Samii M: Microsurgery of the lateral skull base, 172-A
Duspiva W, Wriedt-Lübbe I, Stemberger A, Blümel G: A new technique for nerve anastomosis: micromorphologic and mechanical studies, 161-A
Duspiva W
see Biemer E
see Maurer PC

E

Ebata H, Kusano M, Onishi T, Mito M: Influence of portal venous blood on hepatocytes transplanted into the rat spleen, 158-A
Edgington ThS, see Lee S
Edwards WG: The versatility of the basic microscope system in otolaryngology, 387–393
Eggert HR, see Gilsbach J
Ehara Y, see Lee S
Eichholz H, see Steinau HU
Eisenhardt HJ, Hennecken H, Klein PJ, Pichlmaier H: Experiences with different techniques of microvascular anastomosis, 341–350
Eisenhardt HJ, Hennecken H, Klein PJ, Pichlmaier H: Clinical and histopathologic findings in different techniques of arterial microvascular anastomosis, 77-A
Eloy R, Haffen K, Kedinger M, Grenier JF: Effect of endocrine embryonic tissue in transplantation immunology, 167-A
Endell W, see Grosspietzsch R
Engemann R, Thiede A: Syngeneic orthotopic total replacement of the liver in rats: postoperative function control using angiography and transaminase, 167-A
Engemann R, see Poser H

F

Faibisoff B, see Lidman DH
Falzoi A, see De Riu PL
Fargas-Moreno FJ, see Urue-Buscarons J
Feild JR, Lee L: The creation of a scalp A-V fistula followed by an STA-MCA vein graft bypass: a case report, 237–240
Feussner H, Reimann J, Prignitz I, Jerusalem CR, Zelder O: Selective shunts in the portal area of the normal and cirrhotic rat: a comparative study, 158-A
Finley JM, Wood MB, Acland RD: Osteogenesis from periosteal autografts in ulnar defects in dogs, 203–207
Finseth F, see Harris GD
Firt P, see Michal V
Firth JL: A specification system for microsurgical instruments, 165-A
Fischer G, see Sindou M
Foo D, Chang YC, Rossier AB: Spontaneous cervical epidural hemorrhage, anterior cord syndrome, and familial vascular malformations: case report (reprinted from *Neurology*), 457–461
Fortmeyer HR, see Steinau HU
Fossati E, see Maruyama Y
Fox JL: Microsurgical exposure of intracranial aneurysms, 2–31
Fox U, Montorsi M: A technical modification of heart-lung transplantation in rats, 377–380
Franklin JD, Kirchner FK Jr: Microsurgical replantation of an incompletely amputated penis, 65–69
Freed D, Hartley CJ, Christman KD, Lyman RC, Agris J, Walker WF: High-frequency pulsed Doppler ultrasound: a new tool for microvascular surgery, 148–153

SUBJECT INDEX TO VOLUME 1

This index gives the first author (in parentheses) and the first page of the article, original abstract, letter, or editorial in which the indexed subject occurs. The reader is referred to the author index for the full title and coauthors, where appropriate, of the piece. Abstracts, letters, and editorials are distinguished from articles by the following code: A = abstract, L = letter, E = editorial.

A

Acoustic neuromas
  applications of microsurgery (Edwards) 387
Acoustic Schwannomas
  applications of microsurgery during past 30 years (Smyth) 72
Adenomas, pituitary
  as cause of growth failure in children (Maira) 276
  prolactin-producing, excision by microsurgery (Page) 182
Adventitial stripping
  effect on patency of transverse and oblique anastomosis (Eisenhardt) 341
Allogeneic rejection
  of liver transplants in rats (Lee) 131
Alloplastic spermatocele
  use in excretory azoospermia (Wagenknecht) 428
Amenorrhea
  linked to pituitary adenomas (Page) 182
Anastomosis (*see also* angiology, vascular surgery)
  aortoaortic, and venovenous, in heart-lung transplantation in rats (Fox) 377
  assessment of patency with pulsed Doppler ultrasound (Freed) 148
  of ciliary artery (Gundarova) 272
  Cobbett technique (Eisenhardt) 341
  common carotid-supraclinoid carotid artery
    measurement of pO_2 and pCO_2 levels in brain tissue of dogs (Shields) 267
    using autogenous artery and vein grafts (Shields) 114
  comparison of transverse and oblique techniques with and without adventitial stripping (Eisenhardt) 341
  in digital replantation, hazards of cigarette smoking in postoperative period (Harris) 403
  end-to-end
    comparison of absorbable and nonabsorbable suture material in rats (Thiede) 216
  end-to-end
    and end-to-side arterial and arteriovenous, thrombogenesis (Shimizu) 39
    modification of a technique for deep wounds (Kinnebrew) 241
  end-to-side
    new clamp (Baek) 465
    and side-to-side, in renal arteries (Novick) 94
  extracranial-intracranial, in the People's Republic of China (Chang) 154
  femoral blood vessels in rats, effect of artificial postoperative hematoma on patency (Sadove) 50
  histologic findings in a free human groin flap (Karl) 394
  neurovascular, use in free latissimus dorsi myocutaneous flaps for dynamic reconstruction of cheek defects (Maruyama) 231
  in revascularization of extracorporeal canine eyes (Sher) 399
  superficial temporal-middle cerebral artery, use of vein graft (Feild) 237
  sutureless
    use of Neodymium-YAG laser (Jain) 436
    use of soluble stent and plastic adhesive (Yamagata) 208
  use of a tilted double clamp (Hendel) 470
Anatomy
  of intracranial aneurysms (Fox) 2
  of retroauricular free flap (Wada) 108
  of uncal blood supply (Waddington) 32
Andrologic urology (*see also* urology)
  canine model for reversal of vasculogenic impotence by microsurgical revascularization of corpus cavernosum penis (Gross) 56
  epididymovasostomy and vasovasostomy in W. Germany (Wagenknecht) 370
  use of the alloplastic spermatocele (Wagenknecht) 428
Aneurysms
  experimental, argon laser photocoagulation (Maira) 137
  intracranial, microsurgical exposure (Fox) 2
  at site of laser anastomosis (Jain) 436
Angiology (*see also* blood flow, vascular surgery)
  anatomy of intracranial aneurysms (Fox) 2
  clinical and histopathologic findings with different techniques of arterial anastomosis (Eisenhardt) 77-A
  effects of artificial postoperative hematoma on patency of anastomoses in rat femoral blood vessels (Sadove) 50
  functional and micromorphologic changes in venous grafts (Holzmann) 78-A
  human umbilical artery as new source for microsurgical grafts (Mehdorn) 79-A
  new aspects of pseudoendothelial cell growth on plastic prostheses in rats (Brieler) 77-A
  new hypothesis of blood circulation in heart-lung block in rats (Fox) 377
  new method for overcoming constricting arteriovenous fistulas for hemodialysis (Homatas) 79-A
  new method for studying arterial microvascular anastomoses using scanning electron microscope and corrosion casts (van Gelder) 78-A
  normal blood supply to human uncus (Waddington) 32
  patency and healing after microvascular surgery on irradiated arteries and veins (Watson) 80-A
  prevention of thrombosis in microvascular grafts by anticoagulant and antiplatelet therapy (Friedman) 78-A
  quantitation of stenoses in microvascular anastomoses using high-frequency pulsed Doppler ultrasound (Freed) 148

restoration of vascular continuity with a vein graft after resection of ulnar artery aneurysms Patel (79-A)
revascularization of isolated extracorporeal canine eyes by microvascular anastomoses as model for study of microcirculation (Sher) 399
scanning and electron microscopic examinations of Gore-tex vascular implants (Anders) 77-A
thrombogenesis in experimental microvascular anastomosis in rats (Shimizu) 39
treatment of experimental aneurysms with argon laser photocoagulation (Maira) 137
ultrastructural control of small vessels following microsurgical intervention by tissue adhesion with fibrin (Meyermann) 79-A
vascular anatomy of the free retroauricular flap (Wada) 108
Anterior communicating artery
microsurgical exposure of aneurysms (Fox) 2
Anterior cord syndrome
and cervical epidural hemorrhage (reprinted from *Neurology*) (Foo) 457
Argon laser
in photocoagulation of experimental aneurysms (Maira) 137
Arteriovenous fistula
creation to enlarge the superficial temporal artery for use in the EC-IC arterial bypass procedure (Feild) 237
Arteriovenous malformations
and cervical epidural hemorrhage (reprinted from *Neurology*) (Foo) 457
in critical areas of cerebrum, microsurgical treatment (Da Pian) 305
Artery(ies)
anatomy of vessels to human uncus (Waddington) 32
anterior communicating, in microsurgical exposure of intracranial aneurysms (Fox) 2
basilar, in microsurgical exposure of intracranial aneurysms (Fox) 2
common carotid
anastomoses with supraclinoid carotid, measurement of pO_2 and pCO_2 levels in brain tissue of dogs (Shields) 267
anastomoses with supraclinoid carotid using autogenous artery and vein grafts (Shields) 114
in rats, anastomosis to determine factors in thrombogenesis (Shimizu) 39
digital, bilateral thrombosis due to blunt trauma (Lucas) 472
internal carotid, in microsurgical exposure of intracranial aneurysms (Fox) 2
middle cerebral
in microsurgical exposure of intracranial aneurysms (Fox) 2
occlusion following transposition of omentum to brain in rabbits (De Riu) 321
posterior long ciliary, microsurgery (Gundarova) 272
retroauricular, anatomy (Wada) 108
superficial temporal, enlargement by fistulization and use in the EC-IC arterial bypass procedure (Feild) 237
supraclinoid carotid, anastomoses with common carotid
measurement of pO_2 and pCO_2 levels in brain tissue of dogs (Shields) 267
using autogenous artery and vein grafts (Shields) 114
to human uncus (Waddington) 32
Azoospermia, excretory
treatment with epididymovasostomy in West Germany (Wagenknecht) 370
use of alloplastic spermatoceles (Wagenknecht) 428

B

Basal ganglia
removal of AV malformation (Da Pian) 305
Basilar artery
bifurcation aneurysm (Fox) 2
Blood (*see* angiology, vascular surgery)
Blood flow
cerebral
measurement of pO_2 and pCO_2 levels in brain tissue of dogs before and after revascularization (Shields) 267
after middle cerebral artery occlusion in rabbits following transposition of omentum to the brain (De Riu) 321
in digits, insufficiency due to blunt trauma (Lucas) 472
extracorporeal canine eye as model, revascularization by microsurgical anastomosis (Sher) 399
in femoral vessels of rats, effect of artificial postoperative hematoma on patency of microvascular anastomoses (Sadove) 50
in heart-lung block, new hypothesis suggested by hemodynamic studies in rats undergoing heart-lung transplantation (Fox) 377
Blood supply
cerebral, in dogs, augmentation using autogenous artery and vein grafts for common carotid-supraclinoid carotid anastomoses (Shields) 114
to human uncus (Waddington) 32
Blood vessels (*see also* specific artery or vein)
rat femoral, effects of artificial postoperative hematoma on patency of microvascular anastomoses (Sadove) 50
Bone
evaluation of osteogenesis by microrevascularized periosteum and bone grafts (Puckett) 173-A
osteogenesis from periosteal autografts in ulnar defects in dogs (Finley) 203
Bone grafts
free vascularized, review of microsurgical techniques (Harii) 223
Book reviews
Acoustic Tumors, Volumes 1 and 2 (House and Luetje, eds) 252
Antimicrobial Prophylaxis in Surgery (Keighley and Burdon, eds) 334
Coronary Bypass Surgery (Rahimtoola, ed) 87
Diagnostic Electron Microscopy, Volume I (Trump and Jones, eds) 87
Diagnostic Electron Microscopy, Volume II (Trump and Jones, eds) 175
Guide to Surgical Terminology, 3rd Edition (Coleman) 88
Microlaryngoscopy and Endolaryngeal Microsurgery, 2nd Revised Edition (Kleinsasser) 175
Microsurgery (Silber, ed) 335
Microsurgery of the Glaucomas (Krasnov) 482
Microsurgery Practice Manual (Acland) 482
Microsurgery of the Vitreous: Comparisons of Instrumentation, Techniques, and Philosophies (Klein and Katzin, eds) 87
Microvascular Anastomoses for Cerebral Ischemia (Fein and Reichman, eds) 413
Neurosurgery (Operative Surgery Series), Third Edition (Symon, ed) 252
Brain (*see also* central nervous system, cerebrum, neurology, neurosurgery)
dog, augmentation of blood supply (Shields) 114
dog, pO_2 and pCO_2 levels before and after revascularization (Shields) 267
human, normal blood supply to uncus (Waddington) 32

C

Carbon dioxide
partial pressure levels in brain tissue before and after cerebral revascularization (Shields) 267
Carbon dioxide laser
for pars plana transvitreal photocautery (Miller) 187
review of surgical properties and description of new wet-field technique for intraocular surgery (Smith) 354
Case report(s)
bilateral digital artery thrombosis from blunt trauma (Lucas) 472
creation of scalp AV fistula followed by STA-MCA vein graft bypass (Feild) 237
latissimus dorsi myocutaneous flaps in dynamic repair of cheek defects (Maruyama) 231
microsurgical removal of arteriovenous malformations in critical areas of the cerebrum (Da Pian) 305
spontaneous cervical epidural hemorrhage, anterior cord syndrome, and familial vascular malformations (reprinted from *Neurology*) (Foo) 457
vascularized transplantation of skeletal muscle (Serafin) 259
Central nervous system (*see also* brain, cerebrum, neurology, neurosurgery)
application of microsurgical techniques to epiphysectomy in rats (Latouche) 81-A
microsurgery of prepontine tumors (Friedrich) 80-A
microsurgery of ruptured lumbar discs (Gilsbach) 80-A

spinal cord revascularization with anastomoses at the conus medullaris level (Sindou) 81-A
transsphenoidal microsurgical removal of calcified craniopharyngioma with pneumatic-powered drill (Lee) 81-A
vascular microsurgery in cerebral ischemia (Holbach) 81-A
Cerebral blood flow
in dogs, augmentation using autogenous artery and vein grafts for common carotid-supraclinoid carotid artery anastomoses (Shields) 114
in rabbits, after transposition of omentum and occlusion of middle cerebral artery (De Riu) 321
Cerebral infarction threshold
effect of transposition of pedicled omental grafts to brain (De Riu) 321
Cerebral revascularization
creation of an artificial AV fistula to enlarge the superficial temporal artery for use in the EC-IC arterial bypass procedure (Feild) 237
measurement of pO_2 and pCO_2 levels in brain tissue of dogs (Shields) 267
Cerebrum (*see also* brain, central nervous system, neurology, neurosurgery)
arteriovenous malformations (Da Pian) 305
extracranial-intracranial arterial anastomoses in the People's Republic of China (Chang) 154
Cervical anterior cord syndrome
resulting from bleeding of AV malformation (reprinted from *Neurology*) (Foo) 457
Cheek defects
dynamic reconstruction with latissimus dorsi myocutaneous flaps (Maruyama) 231
China, People's Republic
microsurgery (Chang) 154
Cholesteatoma
elimination by microsurgical technique (Smyth) 72
Cholesterol
levels after portacaval shunt in rats (Numata) 300
Cigarette smoking
hazards following digital replantation (Harris) 403
Ciliary artery
posterior long, microsurgical technique (Gundarova) 272
use to revascularize isolated extracorporeal canine eye (Sher) 399
Clamp, microvascular
for end-to-side anastomoses (Baek) 465
tilted double blade design (Hendel) 470
for use in laboratory (Lee) 325
CO_2 (*see* carbon dioxide)
Collagen
fusion by laser in sutureless anastomosis (Jain) 436
Common carotid artery
anastomoses with supraclinoid carotid
measurement of pO_2 and pCO_2 levels in brain tissue in dogs (Shields) 267
using autogenous artery and vein grafts (Shields) 114
Computerized tomography
use in diagnosing pituitary adenomas in children (Maira) 276
Corpus callosum
removal of arteriovenous malformation (Da Pian) 305
Corpus cavernosum penis
canine, revascularization (Gross) 56
human, transected in partial amputation (Franklin) 65
Cyanoacrylate monomer adhesives
use in sutureless anastomosis (Yamagata) 208

D

Digital replantation
hazards of cigarette smoking in postoperative period (Harris) 403
in the People's Republic of China (Chang) 154
Digits
thrombosis of arteries due to blunt trauma (Lucas) 472
Disc, lumbar
microdiscectomy in rat (Capanna) 351
Doppler ultrasound, high-frequency pulsed
use in assessing patency of microvascular anastomosis (Freed) 148
Dynamic reconstruction
myocutaneous flap (Maruyama) 231

E

Ear (*see also* otolaryngology)
applications of microsurgery (Edwards) 387
use of operating microscope during past 30 years (Smyth) 72
End-to-end anastomosis
modification of techniques for deep wounds (Kinnebrew) 241
in rats, to determine factors in thrombogenesis (Shimizu) 39
End-to-side anastomosis
a new clamp (Baek) 465
in rats, to determine factors in thrombogenesis (Shimizu) 39
Epididymovasostomy
microsurgical technique for refertilization (Wagenknecht) 370
Esophageal defects
repair with free or pedicled segmental jejunum transplantation in the People's Republic of China (Chang) 154
Esophagoplasties
revascularized jejunal loop (Germain) 122-A
Excretory azoospermia
treatment with epididymovasostomy and vasovasostomy (Wagenknecht) 370
use of alloplastic spermatocele (Wagenknecht) 428
External carotid artery
retroauricular branch (Wada) 108
Extracorporeal reconstruction
of arteries of donor kidneys (Novick) 94
Extracranial-intracranial arterial anastomoses
in the People's Republic of China (Chang) 154
Extracranial-intracranial bypass
use of superficial temporal artery enlarged by fistulization (Feild) 237
Extremities (*see also* specific structure)
experience of a replantation service (Biemer) 164-A
limb replantations (Maurer) 164-A
microvascular allografts and heterografts (Harashina) 164-A
replantation of big toe using microvascular anastomosis (Werber) 165-A
Eye (*see also* ocular surgery, ophthalmology)
canine, revascularization for microcirculation studies (Sher) 399
microsurgery of vessels (Gundarova) 272
Face
suitability of free retroauricular flap for reconstruction (Wada) 108
Facial nerve lesions
application of microsurgery during past 30 years (Smyth) 72
Fallopian tubes
isthmus or isthmic-ampullary junction as site for sterilization and anastomoses in swine (Rock) 61
placental vessels as a substitute in microsurgery practice (Goldstein) 70
Falope-ring sterilization
reversal in swine (Rock) 61
Femoral blood vessels
rat, effect of artificial postoperative hematoma on patency of microvascular anastomoses (Sadove) 50
Fenestration operation
use of operating microscope (Smyth) 72
Fibroproliferative retinopathy
treatment by laser photocautery (Miller) 187
Fibula transplantation, free
in the People's Republic of China (Chang) 154
Fistula, arteriovenous
creation to enlarge the superficial temporal artery for use in the EC-IC arterial bypass procedure (Feild) 237
Flap(s), free (*see also* plastic surgery)
gracilis myocutaneous, for reconstruction of severely injured forearm (Serafin) 259
groin, histopathologic findings in a human arterial anastomosis (Karl) 394
latissimus dorsi myocutaneous, in dynamic reconstruction of cheek defects (Maruyama) 231
retroauricular, vascular anatomy (Wada) 108
review of microsurgical techniques (Harii) 223
skin, in the People's Republic of China (Chang) 154
Forearm
severely injured, reconstruction with free gracilis myocutaneous flap (Serafin) 259

Free tissue transplantation (*see also* flaps, plastic surgery, transplantation)
histologic findings in a human arterial anastomosis (Karl) 394
myocutaneous, from latissimus dorsi (Maruyama) 108
in the People's Republic of China (Chang) 154
in plastic surgery (Harii) 223
skeletal muscle (Serafin) 259

G

Galactorrhea
linked to pituitary adenomas (Page) 182
Gardner-Rand microsurgical operation
for treatment of tic douloureux (Rand) 101
Gracilis myocutaneous flap
for reconstruction of severely injured forearm (Serafin) 259
Graft(s) (*see also* flaps, plastic surgery, transplantation)
artificial, expanded polytetrafluoroethylene (Lidman) 447
assessment of efficiency in common carotid-supraclinoid carotid artery anastomosis (Shields) 267
autogenous
arterial, use in common carotid-supraclinoid carotid anastomoses (Shields) 114
branched, use in repair of renal arteries (Novick) 94
venous, in common carotid-supraclinoid carotid anastomoses (Shields) 114
femoral vein, use in revascularizing corpus cavernosum penis in dogs (Gross) 56
heart and spleen, simultaneous transplantation in rats (Blanchard) 381
ovary into spleen, to determine effect of hepatic interposition on ovary-pituitary interaction (Lee) 440
pedicled omentum, in rabbits, effect of transposition to brain on cerebral infarction threshold (De Riu) 321
saphenous artery, use in common carotid-supraclinoid carotid anastomosis (Shields) 114
vein, use to restore flow after blunt trauma to digital arteries (Lucas) 472
Groin flap
free transfer in a human, histopathologic findings in an arterial anastomosis (Karl) 394
Growth failure
in children, and pituitary adenomas (Maira) 276
Growth hormone deficiency
linked to pituitary adenomas (Maira) 276
Gynecology
abolishment of amenorrhea, galactorrhea, and hyperprolactinemia by microsurgical excision of prolactin-producing pituitary adenomas (Page) 182
application of microsurgery to cases of tubal sterility (Kanemaki) 83-A
effects of microsurgical techniques on rat uterus (Urue-Buscarons) 84-A
end-to-end anastomoses for reversal of sterilization using CO_2 laser technique (Grosspietzsche) 82-A
introductory microsurgical workshop program (Phillips) 120
management of tuboperitoneal factor in infertility with microsurgical techniques (Kontopoulos) 83-A
microsurgical reanastomosis of Fallopian tube (Inthraphuvasak) 82-A
microsurgical repair of Fallopian tube after sterilization of rabbits (Anderer) 82-A
microsurgical technique of tubal sterilization allowing possibility of restoration (Urue-Buscarons) 85-A
swine model for sterilization reversal, tubal reconstruction using microsurgical technique (Rock) 61

H

Hand
free transfer of toe, review of microsurgical techniques (Harii) 223
Heart-lung transplantation
technical modification in rats (Fox) 377
Heart and spleen twin grafts
microsurgical technique in rats (Blanchard) 381
Hemangioma
dynamic repair in cheek with myocutaneous flap (Maruyama) 231
spontaneous cervical cutaneous, family history (reprinted from *Neurology*) (Foo) 457
Hematoma
artificial, effect on thrombus formation at microvascular anastomotic sites in rat femoral blood vessels (Sadove) 50
Hepatic screening
and ovarian-induced hormone levels in rats (Lee) 440
Heterotopic transplantation
heart-lung in rats (Fox) 377
liver in rats (Lee) 131
Histoincompatibility
heterotopic and orthotopic liver transplants in rats (Lee) 131
Histopathology
of anastomosis from human free groin flap (Karl) 394
Hormonal patterns
effect of intrasplenic ovarian graft (Lee) 440
Hyperlipidemia
effect of portacaval shunt in rats (Numata) 300
Hyperplasia
of intima in human artery after anastomosis (Karl) 394
Hyperprolactinemia
produced by pituitary adenomas (Page) 182
Hypophysectomy
transsphenoidal, applications of operating microscope (Edwards) 387
Hypotension, controlled
in microsurgery (Csongrady) 173-A

I

Idiopathic (Bell's) palsy
microsurgical treatment (Smyth) 72
Illumination systems
operating microscope (Hoerenz) 364
Immune response
liver transplants in rats (Lee) 131
Impotence (*see also* urology)
vasculogenic, microsurgical revascularization of canine corpus cavernosum penis (Gross) 56
Infarction, cerebral threshold
effect of transposition of pedicled omental grafts to rabbit brain (De Riu) 321
Infertility (*see also* gynecology, urology)
treatment with epididymovasostomy and vasovasostomy in West Germany (Wagenknecht) 370
use of alloplastic spermatoceles in cases of excretory azoospermia (Wagenknecht) 428
Insula
removal of AV malformations (Da Pian) 305
Internal carotid artery
aneurysms (Fox) 2
Intracranial aneurysms
microsurgical anatomy (Fox) 2
Intramuscular urography
examination of renal function following ureteroureterostomy in rats (Lamesch) 462
Intraocular photosurgery
new wet-field CO_2 laser technique (Smith) 354
use of CO_2 laser (Miller) 187
Ischemia
of amputated penis, prevention (Franklin) 65

J

Jejunum transplantation
free or pedicled segmental, for esophageal defects in the People's Republic of China (Chang) 154
Joint transplantation
with microsurgical vascular anastomoses (Walker) 173-A

K

Kidneys (*see also* renal)
damaged or diseased, repair before transplantation (Novick) 94
examination by intramuscular urography after ureteroureterostomy in rats (Lamesch) 462

L

Laboratory aids
a new clamp and stay suture retractor (Lee) 325
a new mouthprop for airway maintenance in anesthetized rats, a vessel stabilizer and dilator, and a modification of the technique for end-to-end anastomosis in deep wounds (Kinnebrew) 241

Laboratory microsurgery
arrangements for workshops in gynecology (Phillips) 120
microdiscectomy training in rats (Capanna) 351
use of human placenta for practice (Goldstein) 70
Labyrinthine disorders
microsurgical treatment during past 30 years (Smyth) 72
Laryngology (*see also* otolaryngology)
applications of microsurgery (Smyth) 72, (Edwards) 387
Laser
argon, treatment of experimental aneurysms (Maira) 137
carbon dioxide
in intraocular surgery (Miller) 187
review of surgical properties and description of new wet-field technique for intraocular surgery (Smith) 354
Neodymium-YAG, use in sutureless anastomosis (Jain) 436
Latissimus dorsi myocutaneous flaps
free transfer in dynamic reconstruction of cheek defects (Maruyama) 231
Lee technique
for heart-lung transplantation, modification (Fox) 377
Lens
keratophakia and intraocular implantation (Beale) 172-A
Liver
effect of interposition on ovary-pituitary interaction in rats (Lee) 440
Liver transplants
heterotopic and orthotopic, in rats (Lee) 131
Lumbar microdiscectomy
in rats, as microsurgical exercise (Capanna) 351
Lung, and heart block
a new transplantation technique in rats (Fox) 377
Lymphology
cardiac lymph flow (Norbeck) 85-A
direct lymphaticovenous anastomosis in rats (Battistini) 85-A
electrolytes, substrates, and enzymes in cardiac lymph flow (Preusse) 86-A

M

Mass spectrometer
for measurement of pO_2 and pCO_2 levels in brain tissue of dogs before and after cerebral revascularization (Shields) 267
Media
disruption in human arterial anastomosis (Karl) 394
Microcirculation
isolated extracorporeal canine eye as model for direct microvascular anastomosis (Sher) 399
Microdiscectomy, lumbar
in rats, as microsurgical exercise (Capanna) 351
Microscope, operating
history in ocular surgery (Barraquer) 288
individual parts, handling, assembling, focusing, and balancing (Hoerenz) 419
optical principles, illumination systems, and support systems (Hoerenz) 364
in otology and laryngology during past 30 years (Smyth) 72
in surgery of intracranial aneurysms (Fox) 2
versatility in otolaryngology (Edwards) 387
Microsurgery
as humbug (Donaghy) 93-E
Journal of Microsurgery, introduction (Donaghy) 1-E
necessity for practice (Donaghy) 181-E
in ocular surgery (Barraquer) 288
in the People's Republic of China (Chang) 154
perception of small differences (Donaghy) 257-E
publishing for the public weal (Donaghy) 417-E
questions and answers from readers (Donaghy) 339-E
teaching to gynecologists (Phillips) 120
Microsurgical instruments
argon laser, treatment of experimental aneurysms (Maira) 137
carbon dioxide laser
pars plana transvitreal photocautery (Miller) 187
review of surgical characteristics and description of new wet-field technique for intraocular surgery (Smith) 354
mass spectrometer, for measurement of pO_2 and pCO_2 levels in brain tissue of dogs before and after cerebral revascularization (Shields) 267
Neodymium-YAG laser, for elimination of sutures (Jain) 436
operating microscope
history in ocular surgery (Barraquer) 289
individual parts, handling, assembling, focusing, and balancing (Hoerenz) 419
in microsurgical exposure of intracranial aneurysms (Fox) 2
optical principles, illumination systems, and support systems (Hoerenz) 364
in otolaryngology (Edwards) 387
stereo-video microscope (Beale) 165-A
Microsurgical materials and techniques
comparison of synthetic absorbable and nonabsorbable microsurgical sutures in rats (Thiede) 216
expanded polytetrafluoroethylene as microvascular graft in rats, dogs, and rabbits (Lidman) 447
experimental sutureless microvascular anastomosis using a soluble polyvinyl alcohol tube and plastic adhesives (Yamagata) 20
high-frequency pulsed Doppler ultrasound, for quantitation of stenoses (Freed) 148
improved microsurgical clamp and stay suture retractor for vascular surgery in rats (Lee) 325
intramuscular urography for examination of renal function in rats after ureteroureterostomy (Lamesch) 462
modification of heart-lung transplantation in rats using aortoaortic anastomosis instead of venovenous anastomosis (Fox) 377
new clamp for end-to-side microvascular anastomosis (Baek) 465
new mouthprop for airway maintenance in anesthetized rats, a vessel stabilizer and dilator, and modification of the technique for end-to-end anastomosis in deep wounds (Kinnebrew) 241
new procedure for simultaneous transplantation of spleen and heart in rats (Blanchard) 381
portacaval shunt, effect on hyperlipidemia in rats (Numata) 300
revascularization of isolated extracorporeal canine eyes by direct microsurgical anastomosis (Sher) 399
sutureless microvascular anastomosis using Neodymium-YAG laser (Jain) 436
tensiometric studies of absorbable and nonabsorbable sutures (Thiede, Rodeheaver) 481-L
tilted double clamp for microvascular anastomosis (Hendel) 470
transverse and oblique anastomoses with and without adventitial stripping in rats (Eisenhardt) 341
Microsurgical training
fresh human placenta as model (Goldstein) 70
for gynecologists (Phillips) 120
an improved microsurgical clamp and stay suture retractor for vascular surgery in rats (Lee) 325
laboratory adjuncts (Kinnebrew) 241
lumbar microdiscectomy in rats as exercise (Capanna) 351
ureteroureterostomy in rats as exercise, examination of renal function with intramuscular urography (Lamesch) 462
Microvascular anastomoses (*see* anastomoses)
Microvascular clamp
improved design for laboratory work (Lee) 325
Middle cerebral artery
aneurysm (Fox) 2
occlusion following transposition of omentum to brain in rabbits (De Riu) 321
Motor area
removal of AV malformation (Da Pian) 305
Motor tetraplegia
caused by epidural bleeding of AV malformation in cervical region (reprinted from *Neurology*) (Foo) 457
Mouthprop
for airway maintenance in rats (Kinnebrew) 241
Muscle
gracilis, free myocutaneous flap, for reconstruction of severely injured forearm (Serafin) 259

latissimus dorsi, free myocutaneous flaps, for reconstruction of cheek defects (Maruyama) 231
Muscle transplantation, free
in the People's Republic of China (Chang) 154
review of microsurgical techniques (Harii) 223
Myocutaneous flaps, free
gracilis, for reconstruction of severely injured forearm (Serafin) 259
latissimus dorsi, for repair of cheek defects (Maruyama) 231

N

Neodymium-YAG laser
in sutureless microvascular anastomoses (Jain) 436
Nerve
optic, extracranial microsurgical approach (Sofferman) 195
trigeminal, anatomy and function (Rand) 101
Neural anastomoses
in penis replantation (Franklin) 65
in transplantation of skeletal muscle (Serafin) 259
Neurology (*see also* central and peripheral nervous system, neurosurgery)
a case of cervical anterior cord syndrome caused by bleeding AV malformation (reprinted from *Neurology*) (Foo) 457
Neuromas, acoustic
applications of operating microscope (Edwards) 387
Neurosurgery (*see also* neurology)
augmentation of cerebral blood supply in dogs (Shields) 114
extracranial microsurgical approach to the optic nerve (Sofferman) 195
microsurgical exposure of intracranial aneurysms (Fox) 2
microsurgical techniques in the treatment of trigeminal neuralgia (Rand) 101
microsurgical treatment of AV malformations in critical areas of the cerebrum (Da Pian) 305
normal blood supply to human uncus (Waddington) 32
pO_2 and pCO_2 levels in brain tissue of dogs before and after cerebral revascularization (Shields) 267
Neurovascular anastomoses
use in free latissimus dorsi myocutaneous flaps for dynamic reconstruction of cheek defects (Maruyama) 231
Nicotine
and vasoconstriction (Harris) 402
Nose and postnasal space
applications of microsurgery (Edwards) 387

O

Occipital artery
branch to retroauricular region (Wada) 108
Ocular surgery (*see also* ophthalmology)
history of the operating microscope (Barraquer) 288
new wet-field CO_2 laser technique (Smith) 354
pars plana transvitreal CO_2 laser photocautery (Miller) 187
Omentum
free transplantation
in the People's Republic of China (Chang) 154
review of microsurgical techniques (Harii) 225
pedicled and free transposition to the brain in rabbits to minimize effect of middle cerebral artery occlusion (De Riu) 321
Operating microscope
history in ocular surgery (Barraquer) 288
individual parts, handling, assembling, focusing, and balancing (Hoerenz) 419
optical principles, illumination systems, and support systems (Hoerenz) 364
in otology and laryngology during past 30 years (Smyth) 72
in surgery of intracranial aneurysms (Fox) 2
versatility in otolaryngology (Edwards) 387
Ophthalmology (*see also* eye, ocular surgery)
extracranial microsurgical approach to the optic nerve (Sofferman) 195
history of operating microscope in ocular surgery (Barraquer) 288
microsurgery of eye vessels (Gundarova) 272
new wet-field CO_2 laser technique for intraocular surgery (Smith) 354
pars plana transvitreal CO_2 laser photocautery (Miller) 187
Optic nerve
extracranial microsurgical approach for decompression (Sofferman) 195
Oral contraceptives
associated with pituitary adenomas (Page) 182
Orthopedics (*see* bone)
Orthotopic liver transplants
compared with heterotopic transplants, in rats (Lee) 131
Osteogenesis
from periosteal autografts in ulnar defects in dogs (Finley) 203
Otitis media, chronic suppurative
applications of microsurgery during past 30 years (Smyth) 72
Otolaryngology (*see also* otology)
review of operating microscope during past 30 years (Smyth) 72
versatility of operating microscope (Edwards) 387
Otology (*see also* otolaryngology)
microsurgery (Smyth) 72
Otosclerosis
applications of microsurgery during past 30 years (Smyth) 72
Ovary-pituitary interaction
effect of portacaval shunt in rats (Lee) 440
Oxygen
partial pressure levels in brain tissue before and after cerebral revascularization (Shields) 267

P

Pars plana incision
use in transvitreal laser photocautery (Miller) 187
Patency
of autogenous artery and vein grafts in common carotid-supraclinoid carotid anastomoses (Shields) 114
comparison of rates in polytetrafluoroethylene grafts in dogs, rabbits, and rats (Lidman) 447
effect of hematoma in microvascular anastomoses (Sadove) 50
measurement with high-frequency pulsed Doppler ultrasound (Freed) 148
rates after different techniques of anastomosis (Eisenhardt) 341
Pathophysiology
a case of cervical anterior cord syndrome caused by bleeding AV malformation (reprinted from *Neurology*) (Foo) 457
effect of portacaval shunt on hyperlipidemia in rats (Numata) 300
effect of portacaval shunt and portacaval transposition on hypocalcemia in the parathyroidectomized rat (Liguori) 160-A
effect of portal venous blood on hepatocytes transplanted into rat spleen (Ebata) 158-A
effect of tryptophan-free diet on plasma level of tryptophan and cerebral turnover of serotonin in rats with portacaval anastomosis (Palombi) 161-A
insulin, glucagon, and somatostatin release from isografted rat pancreas (Nozawa) 160-A
intravenous ammonia stress test after portacaval shunt and additional portal arterialization in normal and cirrhotic rats (Hirner) 159-A
liver hyperregeneration in rats after end-to-side portacaval anastomosis (Grün) 159-A
microsurgical treatment of AV malformations in critical areas of the cerebrum (Da Pian) 305
microsurgery of the common bile duct in rabbits (Gremillet) 159-A
selective shunts in the portal area of normal and cirrhotic rats (Feussner) 158-A
Pediatrics
pituitary microadenomas as cause of growth failure (Maira) 276
Penis, corpus cavernosum
microsurgical revascularization in dogs (Gross) 56
replantation using microsurgical techniques in human (Franklin) 65
People's Republic of China
experiences in microsurgery (Chang) 154

Periosteal grafts
osteogenesis in canine ulnar defects (Finley) 203
Peripheral nervous system (*see also* neurology, neurosurgery)
brachial plexus injury repair by microsurgical techniques (Sedel) 161-A
facial rehabilitation by nerve crossover operation and combined muscle flap technique (Walter) 162-A
microsurgical neurovascular sutures and histochemical posttraumatic consequences (De Sousa Pereira) 162-A
microsurgical repair of severed motor branches of the median and ulnar nerves in the hand (Haussmann) 161-A
new technique for nerve anastomosis (Duspiva) 161-A
reconstruction of nerves (Solonen) 162-A
Perivascular hematoma
effect on patency (Sadove) 50
Photocautery
carbon dioxide laser, use in ophthalmic surgery (Smith) 354
transvitreal incision with CO_2 laser (Miller) 189
Photocoagulation
of experimental aneurysms with argon laser (Maira) 137
Photography
intraoperative technique in microsurgery of intracranial aneurysms (Fox) 2
Photosurgery
intraocular, new wet-field CO_2 laser technique (Smith) 354
Pituitary
interaction with ovary, effect of hepatic interposition (Lee) 440
transsphenoidal hypophysectomy, applications of operating microscope (Edwards) 387
Pituitary adenomas
in children with growth failure (Maira) 276
and hyperprolactinemia (Page) 182
Placenta
human, for use in microsurgical training (Goldstein) 70
Plastic adhesives
cyanoacrylate monomers, use in sutureless anastomoses with soluble tubes (Yamagata) 208
Plastic surgery (*see also* flaps, transplantation)
conservation of recipient arteries in lower extremity free flaps using distal recurrent arteries (Shaw) 164-A
effect of different ischemic conditions on viability of free microvascular composite flaps in rat (Karl) 164-A
free flap transplantation (Biemer) 162-A
free latissimus dorsi myocutaneous flaps in dynamic reconstruction of cheek defects (Maruyama) 231
free tissue transfers from the foot (Baudet) 162-A
laparoscopy and microsurgical repair of Fallopian tube (Phillips) 163-A
reconstruction of mandible with a revascularized free rib graft (Harashina) 163-A
review of microsurgical techniques applied to free tissue transfer (Harii) 223
thermographic observations on microvascular composite skin flaps (Heiner) 163-A
upper arm flaps (Dolmans) 162-A
Polyamide suture material
compared with polyglactin 910 and polyglycolic acid suture materials in anastomoses in rats (Thiede) 216
Polyglactin 910 suture material
compared with polyamide suture material in rats (Thiede) 216
Polyglycolic acid suture material
compared with polyamide suture material in rats (Thiede) 216
Polytetrafluoroethylene, expanded
structural properties and use in artificial microvascular grafts (Lidman) 447
Polyvinyl alcohol
use for manufacturing soluble tube stents (Yamagata) 208
Portacaval shunt
effect on hyperlipidemia in rats (Numata) 300
effect on ovary-pituitary interaction (Lee) 440
Posterior long ciliary artery
anastomosis and repair of defects (Gundarova) 272
Posterior wall suturing
use of tilted double clamp (Hendel) 470
Postoperative hematoma
effect on patency of microvascular anastomoses (Sadove) 50
Prolactin
produced by pituitary adenoma (Page) 182
Prosthesis
alloplastic spematocele for treating excretory azoospermia (Wagenknecht) 428
microarterial, of expanded polytetrafluoroethylene (Lidman) 447
Pterional approach to aneurysms (Fox) 2

R

Rand microsurgical operation
for treatment of tic douloureux (Rand) 101
Reconstruction (*see also* flaps, plastic surgery, transplantation)
of cheek defects, use of free latissimus dorsi myocutaneous flaps (Maruyama) 231
of pharynx and esophagus by revascularized transfers of intestine and stomach (Baudet) 172-A
of severely injured forearm, with free gracilis myocutaneous flap (Serafin) 259
of swine Fallopian tube, using microsurgical technique (Rock) 61
Refertilization (*see also* gynecology, urology)
epididymovasostomy and vasovasostomy in W. Germany (Wagenknecht) 370
Renal function
in rats, examination by intramuscular urography after ureteroureterostomy (Lamesch) 462
Renal transplantation
extracorporeal microvascular arterial reconstruction in donor kidneys (Novick) 94
Replantation (*see also* flaps, plastic surgery, transplantation)
application of microsurgical techniques to free tissue transfer (Harii) 223
digital, hazards of smoking in postoperative period (Harris) 403
of partially amputated penis (Franklin) 65
in the People's Republic of China (Chang) 154
Retinal tears
repair with laser photocautery (Miller) 187
Retroauricular artery
anatomy (Wada) 108
Revascularization (*see also* blood flow, vascular surgery)
of canine corpus cavernosum penis (Gross) 56
of canine extracorporeal eyes (Sher) 399
cerebral, EC-IC bypass (Feild) 237
cerebral, measurement of tissue pO_2 and pCO_2 levels in dogs (Shields) 267
extracorporeal, techniques for arterial reconstruction in donor kidneys before transplantation (Novick) 94
and omental transposition in rabbits to minimize effects of middle cerebral artery occlusion (De Riu) 371
of partially amputated penis (Franklin) 65
of periosteal grafts in dogs (Finley) 203
Rubeosis iridis
treatment with laser photocautery (Miller) 187

S

Sella turcica
CT scanning for pituitary adenomas (Maira) 276
tomograms in hyperprolactinemia (Page) 182
Shear stress
and thrombogenesis (Shimizu) 39
Shunt, portacaval (*see* portacaval shunt)
Skeletal muscle
vascularized transplantation (Serafin) 259
Skin flap transplantation, free
in the People's Republic of China (Chang) 154
Skull base, lateral
microsurgery (Draf) 172-A

Smoking
hazards after digital replantation (Harris) 403
Spectrometer, mass
for measurement of pO_2 and pCO_2 levels in brain tissue of dogs before and after cerebral revascularization (Shields) 267
Speech area
removal of AV malformation (Da Pian) 305
Spermatocele, alloplastic
use in treatment of excretory azoospermia (Wagenknecht) 428
Spinal cord (*see also* neurology)
cervical anterior cord syndrome (reprinted from *Neurology*) (Foo) 457
Spleen
and heart, new procedure for simultaneous transplantation in rats (Blanchard) 381
Stabilizer and dilator
use of double-ended dental waxing instrument in microsurgical laboratory (Kinnebrew) 241
Stasis
effect on patency of microvascular anastomoses (Sadove) 50
Stay suture retractor
for vascular surgery in rats, design (Lee) 325
Stenosis
and laser anastomosis (Jain) 436
quantitation using high-frequency pulsed Doppler ultrasound (Freed) 148
Sterilization reversal
after use of Falope-ring in swine (Rock) 61
Strut
use of polyethylene in laser anastomoses (Jain) 436
use of soluble tube in sutureless anastomosis with plastic adhesive (Yamagata) 208
Suboccipital arterial decompression (Rand) 101
Subtemporal transtentorial retrogasserian arterial decompression or rhizotomy of the trigeminal nerve (Rand) 101
Superficial temporal artery
enlargement by fistulization and use in EC-IC arterial bypass procedure (Feild) 237
Supraclinoid carotid artery
anastomoses with common carotid measurement of pO_2 and pCO_2 levels in brain tissue of dogs (Shields) 267
using autogenous artery and vein grafts (Shields) 114
Sutureless microvascular anastomosis
using Neodymium-YAG laser (Jain) 436
using a soluble polyvinyl alcohol tube and plastic adhesive (Yamagata) 208
Suture(s)
absorbable and nonabsorbable
microvascular anastomoses in rats (Thiede) 216
reactions (Thiede) 166-A
tensiometric studies (Thiede, Rodeheaver) 481-L
chemical behavior of microsurgical seam material (Hinrichsen) 165-A
ergonomics (Patkin) 165-A
problems of manufacturing and handling (Dahlke) 165-A
specification system (Firth) 165-A
Sweet-Nugent microsurgical operation
for treatment of tic douloureux (Rand) 101

T

Teflon (*see* polytetrafluoroethylene)
Temporal bone diseases
treated by microsurgery (Smyth) 72
Tensiometric studies
of absorbable and nonabsorbable sutures (Thiede) 216, 481-L (Rodeheaver) 481-L
Throat diseases
treated by microsurgery (Smyth) 72
Thrombogenesis
in experimental anastomoses in rats (Shimizu) 39
in rat femoral blood vessels, effect of artificial postoperative hematoma (Sadove) 50
Thrombosis
bilateral, of digital arteries, due to blunt trauma (Lucas) 472
Tic douloureux (*see* trigeminal neuralgia)
Tissue transplantation and replantation (*see also* flaps, plastic surgery, replantation, transplantation)
review of microsurgical techniques (Harii) 223
Toe(s)
second, free transplantation in the People's Republic of China (Chang) 154
transfer to hand, review of microsurgical techniques (Harii) 223
Transcutaneous radiofrequency neurolysis of the gasserian ganglion (Rand) 101
Transplantation (*see also* flaps, plastic surgery, replantation, vascular surgery)
angiography as function control of organ transplants in rats (Poser) 170-A
antimacrophage serum-treated rat renal allograft (Tsuda) 170-A
effect of pancreatic islet cell transplantation on kidney in diabetic rats (Nakano) 169-A
histopathologic findings in a human arterial anastomosis after free groin transfer (Karl) 394
heart-lung in rats, a new technique (Fox) 377
heart, pancreas, kidney, and spleen to neck in rats (Olausson) 171
heart and spleen twin grafts in rats (Blanchard) 381
hemodynamic and microcirculatory state of auxiliary liver isotransplants without portal blood supply (Broelsch) 166-A
heterotopic and orthotopic liver in rats (Lee) 131, 169-A
heterotopic heart, improved operative technique (Konertz) 168-A
immunology, effect of endocrine embryonic tissue (Eloy) 167-A
intraportal, collagenase-percoll isolated pancreatic islets in mouse (Henriksson) 168-A
orthotopic liver in rats
allogeneic graft survival (Zimmerman) 171-A
arterialization (Hansen) 168-A
ovary graft into spleen, to determine effect of hepatic interposition on ovary-pituitary interaction (Lee) 440
pancreas
metabolic effect of alloxan in diabetic rats (Ueda) 171-A
in rats (Germain) 167-A
in the People's Republic of China (Chang) 154
phonocardiographic diagnosis of left ventricular thrombosis in heterotopic rat heart transplants (Blanchard) 166-A
postoperative function control of orthotopic total replacement of the liver in rats using angiography and transaminase (Engemann) 167-A
renal, extracorporeal microvascular arterial reconstruction in donor kidneys (Novick) 94
review of microsurgical techniques applied to free tissue transfer (Harii) 223
stomach in rats, role of histochemistry (Ueda) 171-A
subcutaneous epigastric pouching for tumor tissue transplantation in thymusless nude rats (Sternan) 171-A
synergistic effect of ATS and standard enhancing protocol on heart graft survival in rats differing in major AgB locus (Rowinski) 170-A
unilateral lung (Marck) 169-A
vascularized, of skeletal muscle, a case report (Serafin) 259
Transsphenoidal hypophysectomy
application of microsurgery (Edwards) 387
in children with growth failure (Maira) 276
and removal of pituitary adenomas (Page) 182
Transsphenoidal microsurgery
an extracranial approach to the optic nerve (Sofferman) 195
Trauma
blunt, causing bilateral digital artery thrombosis (Lucas) 472
reconstruction of severely injured forearm with gracilis myocutaneous flap (Serafin) 259
replantation of partially amputated penis (Franklin) 65
Traumatic amaurosis
treatment by decompression of optic nerve (Sofferman) 195
Trigeminal nerve
anatomy and function (Rand) 101
Trigeminal neuralgia
treatment with microsurgical techniques (Rand) 101

Triglyceride levels
after portacaval shunt in rats (Numata) 300
Tubal reconstruction
technique after Falope-ring sterilization in swine (Rock) 61
Turbulence
and thrombogenesis (Shimizu) 39

U

Ulnar defects
use of periosteal autografts in dogs (Finley) 203
Ultrasound, high-frequency pulsed Doppler
in assessing patency of microvascular anastomoses (Freed) 148
Uncus, human
blood supply (Waddington) 32
Ureteroureterostomy
in rats, evaluation of functions by intramuscular urography (Lamesch) 462
Urography, intramuscular
for evaluation of renal function in rats after ureteroureterostomy (Lamesch) 462
Urology
extracorporeal microvascular arterial reconstruction in donor kidneys before transplantation (Novick) 94
intramuscular urography for examination of renal function in rats after ureteroureterostomy (Lamesch) 462
microcirculation in rat vas deferens anastomosis (Almoyna) 82-A
microsurgical method using shunt in the snuff box for treatment of uremic patients (Baumeister) 82-A
microsurgical replantation of partially amputated penis (Franklin) 65
microsurgical techniques in vasovasostomy in rats (Niwa) 84-A
organic changes in internal pudendal and penile arteries and impotence (Michal) 83-A
refertilization in West Germany (Wagenknecht) 371
revascularization procedures for erectile impotence (Michal) 84-A
ureteral protection in retroperitoneal fibrosis by implantation of silicone sheath using microsurgical technique (Wagenknecht) 85-A
use of alloplastic spermatocele in cases of excretory azoospermia (Wagenknecht) 85-A, 428

V

Vascular (*see also* blood)
Vascular anatomy
of free retroauricular flap (Wada) 108
Vascular clip
for end-to-side anastomosis (Baek) 465
design for use in laboratory (Lee) 325
tilted double design for microvascular anastomosis (Hendel) 470
Vascular grafts
expanded polytetrafluoroethylene (Lidman) 447
Vascular malformations
arteriovenous, bleeding as cause of cervical anterior cord syndrome (reprinted from *Neurology*) (Foo) 457
Vascular surgery (*see also* anastomoses, angiology, blood flow)
augmentation of cerebral blood supply in dogs by common carotid-supraclinoid carotid anastomosis using autogenous artery and vein grafts (Shields) 114
comparison of transverse and oblique anastomosis techniques with and without adventitial stripping (Eisenhardt) 341
creation of an AV fistula to enlarge the superficial temporal artery for use in the EC-IC arterial bypass procedure (Feild) 237
effect of artificial postoperative hematoma on patency of microvascular anastomoses in rat femoral blood vessels (Sadove) 50
experimental sutureless microvascular anastomosis using a soluble polyvinyl alcohol tube and plastic adhesive (Yamagata) 308
extracorporeal artery reconstruction in donor kidneys before transplantation (Novick) 94
eye (Gundarova) 272
hazard of cigarette smoking after digital replantation (Harris) 403
local cerebral blood flow after middle cerebral artery occlusion in rabbits following transposition of omentum to the brain (De Riu) 321
microsurgical exposure of intracranial aneurysms (Fox) 2
microsurgical revascularization of canine corpus cavernosum penis (Gross) 56
microsurgical treatment of AV malformations in critical areas of the cerebrum (Da Pian) 305
new clamp for end-to-side microvascular anastomosis (Baek) 465
normal blood supply to human uncus (Waddington) 32
pO_2 and pCO_2 levels in brain tissue of dogs before and after cerebral revascularization (Shields) 267
quantitation of stenoses by high-frequency pulsed Doppler ultrasound (Freed) 148
in rats, an improved microsurgical clamp and stay suture retractor (Lee) 325
a technical modification of heart-lung transplantation in rats (Fox) 377
tensiometric studies of absorbable and nonabsorbable sutures (Rodeheaver, Thiede) 481-L
thrombogenesis in experimental microvascular anastomosis in rats (Shimizu) 39
treatment of experimental aneurysms by argon laser photocoagulation (Maira) 137
use of Neodymium-YAG laser in sutureless microvascular anastomoses (Jain) 436
use of tilted double clamp in microvascular anastomosis (Hendel) 470
Vasculogenic impotence
microsurgical revascularization of canine corpus cavernosum penis (Gross) 56
Vas deferens
anastomosis for refertilization (Wagenknecht) 370
placental vessels as a substitute in microsurgical practice (Goldstein) 70
Vasoconstriction
effect of artificial postoperative hematoma on patency of microvascular anastomoses in rat femoral blood vessels (Sadove) 50
Vasospasm
and cigarette smoking after digital replantation (Harris) 403
Vasovasostomy
for refertilization in excretory azoospermia (Wagenknecht) 370
Vein
external jugular, in rats, anastomosis to determine factors in thrombogenesis (Shimizu) 39
internal ophthalmic, anastomosis to revascularize isolated extracorporeal canine eye (Sher) 399
Venovenous anastomosis
lack of necessity in heart-lung transplantation in rats (Fox) 377
Vessel stabilizer and dilator (Kinnebrew) 241
Vitreous hemorrhage
treatment by laser photocautery (Miller) 187

W

Wet-field technique
of CO_2 laser photocautery in intraocular surgery (Smith) 354

X

X-ray examination
intramuscular urography in rats (Lamesch) 462

Z

Zeiss operating microscope (*see* operating microscope)
